

## Introducing the ViClean™ Surgical Wound Protector Range

- Shields the incision site from bacterial invasion
- 360° Circumferential Retraction
- Hands Free retraction reduces associated patient pain
- Reduces surgeon fatigue often experienced with hand held retractors
- Reduction in SSI's

Reid K, Pockney P, Draganic B, Smith SR. Barrier wound protection decreases surgical site infection in open elective colorectal surgery: A randomized clinical trial. Dis Colon Rectum. 2010;53(10):1374-1380.

ViClean™ Wound Protectors (RIGID + FLEXIBLE RING)

## The NEXT GENERATION Height Adjustable Wound Protectors with WASTE COLLECTION ATTACHED

### Gastrointestinal Surgery

- Prevent cross-contamination from cancerous cells in Gastric & Intestinal fluid and also from potential bacterial SSI's

### Hepatopancreatobiliary Surgery

- Maintain a safe and clean incision site
- Protect Theatre staff and the OR from the Hepatitis virus

### Gynaecology Surgery

- Prevents amniotic fluid contamination and Surgical Site Infection

Wound Protector with Attached Drape/Waste Collection

- Protective Incision Channel and Surface Drape connected
- Waste Collection Bag attached
- Ideal for Open, Minimally Invasive, Thyroid and Gynae (C-Section) Surgeries
